

Strategy Overview

- Seeks to outperform the market by investing in high-quality, innovative and “transformative” companies significantly growing their earnings, total market share, and revenue
- Primary emphasis on domestic companies, with global business models often driving revenues
- Best ideas, high active share portfolio with the ability to invest across all market capitalizations
- Research-driven insights lead to substantially different allocations than the broader equity markets, uncovering compelling opportunities before they become more mainstream
- A disciplined and repeatable investment process resulting in focused portfolios of around 30-50 publicly traded stocks
- Experienced, entrepreneurial portfolio management team

JAG Capital Management, LLC, (the "Firm") is a registered investment adviser. The Firm's All Cap Innovations Composite (the "Composite") is a composite of actual accounts invested in the JAG All Cap Innovations investment strategy. The composite was formally created July 1, 2019 from pre-existing client accounts with an inception date of 6/30/19. Returns are presented pure gross and net of management fees and generally include the reinvestment of all income. Net of fee performance was calculated using actual fees. There is no guarantee that an investment with the strategy will meet its investment objectives. Performance is reported in US Dollars. **Past performance should not be considered indicative of future performance. Any investment contains risk including the risk of total loss.**

JAG Capital Management, LLC is a Missouri company and a wholly owned subsidiary of J.A. Glynn & Co., registered as an Investment Adviser with the Securities and Exchange Commission under the Investment Advisers Act of 1940, as amended. Prior to May 1, 2013, JAG Capital was defined and conducted business as J.A. Glynn & Co. with the advisory business under the name JAG Advisors. The redefinition was a result of corporate restructuring.

The All Cap Innovations Composite is comprised of 30-50 positions in growth companies involved primarily in transformative and disruptive technologies with no market cap restraints. Minimum account size for the composite is \$500,000.

Two index comparisons are appropriate for the following reasons: the Russell 3000 Growth Index is an unmanaged benchmark that assumes the reinvestment of all distributions and excludes the effect of fees and expenses. The Russell 3000 Growth Index measures the performance of the broad growth segment of the US equity universe. It includes those Russell 3000 companies with higher price-to-book ratios and higher forecasted growth values. It is generally representative of the growth segment of the US equity market; the Standard & Poor's 500 Total Return Index is an unmanaged index consisting of 500 companies generally representative of the market for the stocks of companies in leading industries of the US economy. This index is used for comparison purposes only and is not meant to be indicative of a portfolio's performance, asset composition, or volatility. The performance of the Composite may differ markedly from that of compared indices due to varying degrees of diversification and/or other factors. Return calculations for the Composite are provided by Advent Axyx and calculated by JAG. Individuals cannot invest directly in any index.

JAG Capital Management, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. The Firm has been independently verified for the periods April 1, 1996 to December 31, 2020. A copy of the verification report (s) is/are available upon request. **A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis.** Verification does not provide assurance on the accuracy of any specific performance report. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Policies for valuing portfolios, calculating performance, preparing compliant presentations, and a list of the Firm's composite descriptions are available upon request.

The Firm's maximum investment advisory fee schedule for the All Cap Innovations Composite is an annual fee of 1.00% on the first \$5 million; 0.80% on the next \$5 million; 0.60% on the balance.

Annual and quarterly composite dispersion is calculated through the use of an equal-weighted standard deviation for the accounts returns on a pure gross of fees basis included in the composite for the entire year or quarter, respectively. N/A indicates that information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year or quarter.

The 3 Year Standard Deviation was not available at the end of 2019, 2020, or 2021 for the composite or benchmark due to there not being 36 months of historical performance.
